Driven by self-motivation and a passion for innovation, I aim to excel in computer engineering through real-world projects. With a strong foundation in HTML, CSS, JavaScript, Dart, Flutter, and React JS, I seek to expand my expertise and deliver professional results with each assignment.

Experiences

InNeed Intelligent Cloud

Front End Developer [November 2023- December 2024]

- Developed cutting-edge front-end solutions using React to deliver exceptional user experiences and drive business growth for clients.
- Implemented JavaScript, TypeScript, and Tailwind CSS to create dynamic and visually appealing user interfaces.

Verzeo, Bengaluru

Mobile App developer (Front End) [Internship - 2021]

- Developed frontend applications using Flutter and Dart.
- Designed and developed custom widgets to enhance user experience and app functionality.

Education

Maharishi Markandeshwar University, India

Bachelor of Technology in Computer Science and Engineering [2018-2022]
CGPA – 8.06/10

Skills

Languages	Framework	JS Framework
- JavaScript	- Tailwind	- React JS
- HTML	- Bootstrap	
- CSS	- Flutter	
- Dart		

Projects

Homify e-commerce

- Designed and developed a user-friendly e-commerce website from scratch using HTML, CSS, and JavaScript, ensuring an intuitive and engaging user experience.

Demo-repair Employee Management System

- Developed a comprehensive employee management system using the MERN stack (React JS), showcasing expertise in full-stack web development.
- Developed intuitive UI for task tracking, note-taking, enhancing collaboration.
